

History:

For the first time in the history of Kids Against Hunger, we are proud to introduce a food specifically designed to fight the hunger problem here in the USA. For over one year, we worked with an amazing team of developers and food scientists at ConAgra Foods to create the first of its kind product designed specifically to fight hunger in the USA. This Latin Rice formula not only addresses necessary nutritional needs, it also tastes amazing! Please join us in eliminating hunger here at home.

Where to find us:

Kids Against Hunger set up satellites around the country to duplicate this success and to increase the number of meals delivered to starving children all over the world. Each satellite mobilizes the local community to help with food packaging, fundraising and delivery of meals. Our network of satellites continues to grow.

How you can help:

As a nonprofit organization, all funds are raised through the generosity of individual donors, corporations, churches, and foundations. Any size contribution is welcome.

- **Donate:** \$54 can provide a box of 216 meals...that's just 25¢ a meal!
- **Pack meals:** Form a team with friends, family, co-workers, youth groups, scouts, sports teams, senior groups, schools... anyone can help pack meals.
- **Social Media:** Help us spread the word about the Kids Against Hunger mission.

LATIN RICE

Kids Against Hunger.

A trademark of FREEDOM FOODS

*Feeding families around the
world...and around the corner*

Kids Against Hunger is a non-profit humanitarian organization with a mission to provide fully nutritious food to impoverished children and families around the world...and around the corner.

What we do:

Kids Against Hunger volunteers package a highly nutritious, fortified Latin Rice casserole. This protein and nutrient-rich formula meets daily nutrition requirements and improves physical health as well as a child's mental capacity to learn.

**Only 25¢
per meal!**

Why we do what we do:

FOOD INSECURITY IN AMERICA

- 15.5 million (21.1 %) children under the age of 18, go to bed hungry.
- 4.6 million (10 %) seniors 65 and older were in poverty in 2014.
- Food Insecurity in the U.S. tends to be episodic; in 2012, a food insecure household was food insecure for an average of 7 months out of the year.

How we do it:

Kids Against Hunger is a volunteer-driven effort to package and distribute food in communities through food pantries, food banks, etc. A Kids Against Hunger Packing Event gives volunteers an opportunity to contribute "hands-on," in feeding those in need in their local communities.

Young and old alike, Kids Against Hunger volunteer teams have packaged and delivered tens of millions of meals to children in over 60 countries through feeding programs, orphanages, schools, clinics and local food pantries. We now have a domestic food product developed with ConAgra Foods to meet the food insecure needs in this country.
